

Fine Fleece Shetland Sheep Association Inc. Fleece Performance Registration Rules and Instructions

- All adult sheep must be mid-side micron tested and meet FFSSA fleece grading criteria to be registered as FFSSA approved sheep (Premium Grade 1, Grade 1, Premium Grade 2, Grade 2 or 3 for ewes and Premium Grade 1, Grade 1 or Premium Grade 2, and Grade 2 for rams).
- Sheep will be required to have micron testing done for "Approved" fleece registration at the age of 22 months or older. This will be done in addition to any testing that was done prior to the sheep turning 22 months old. The 22 month fleece grade will be included on the pedigree and signified by one of the following abbreviations: PG1, G1, PG2, G2 or G3.
- All Rams must have their fleece grade as a PG1, G1, PG2 or G2 to be included in the Registry.
- Sheep, less than 22 months old, from FFSSA registered rams (PG1, G1, PG2 or G2) and ewes (PG1, G1, PG2, G2 or G3) can qualify for "Provisional" registration by submitting the Fleece Performance Approval and Provisional Registration Form and the fees to the Registry.
- "Provisional" fleece registration will **only** be offered to progeny from two (2) FFSSA registered parents. "Provisional" fleece registrations will have a "P" as the first digit of their registration number. Eligible micron data from 22 months of age onward can be submitted for qualification for "Approved" registration. This would be PG1, G1, PG2 or G2 for rams and PG1, G1, PG2, G2 or G3 for ewes. Sheep from G4 or G5 ewes or ones sired by a G3, G4 or G5 ram must submit micron data at 22 months to be considered for inclusion as an FFSSA approved sheep.
- Converting from "Provisional" to "Approved" is done by submitting 22-month (or older) micron data to the Registry. The Registry Chair determines approval of the sheep and if approved, sends an embossed sticker (with fleece grade) to the owner for placement on the sheep's registration certificate. The Registry is notified to upgrade the sheep to "Approved." **There is no fee for this upgrade.**
- All sheep will have their grade designated as: PG1, PG1, PG2, G2 or G3 and if there isn't any micron information available for ancestors on the pedigree, the letter "N/A" for unknown will be used.
- All applications must be signed by the breeder/owner.
- Registration fees: \$6 for ewes, \$10 for rams, \$4 for transfers.
- Mentoring and education are offered to all members through their regional representatives and the website. Members are encouraged to seek help making breeding decisions so that they gain a better understanding of the effects of breeding choices. (for example: using a G4/G5 ewe instead of a PG1, G1, PG2, G2 or G3 ewe)

Disclaimer: At the time of registration, the sheep listed on the Fleece Performance Approval Form and Provisional Registration Form grade at or above the stated grades per FFSSA's grading chart. Due to variances in aging, gender, and environment, there is no guarantee that these animals will maintain these grades in subsequent testing.

Fine Fleece Shetland Sheep Association Inc. Fleece Performance Registration Rules and Instructions

The FFSSA Performance Registry offers two types of registration:

1. Approved Registrations for sheep 22 months and older and,
2. Provisional Registrations for sheep less than 22 months who have two FFSSA registered parents.

How to Apply for Approved Registrations:

Step 1) Join FFSSA as a Senior, Junior, or Associate with Registry Privileges member. If you are a Senior or Junior member you have already had your sheep micron tested and will need to determine which sheep on your OFDA 2000 Report (summary page) to register. You will also submit the NASSA registration certificate if one or both of the sheep's parents are NOT FFSSA registered.

Step 2) If you are an Associate Member with Registry Privileges and have NOT micron tested your sheep, take a mid-side sample from each sheep and send samples for testing.

Step 3) When you have the OFDA 2000 Report (summary page), write the sheep name on this report for each sheep you want to register. The report is ready to submit.

Step 4) Scan the front and back of each sheep's NASSA registration certificate. The back side of the registration certificate should include the name of the sheep. (*NASSA certificate is not required if both parents are FFSSA registered.*)

Step 5) Fill out the sections of the form that are applicable.

Step 6) Attach scanned documents in the *Upload Section* at the end of the online form. Sign and submit completed form.

Step 7) If you choose to submit paper documents, mail or email your documents to:

FFSSA/GLM Registry
19508 Tiller Trail Hwy
Days Creek, OR 97429
Phone: 541-825-8580
Email: FFSSA@glmregistry.com

Each sheep's fleece will be graded by the Registry Chair.

Step 8) Use the PayPal button at: www.finefleeceshetlandsheep.org or send your check with the appropriate fees to:

FFSSA/GLM Registry
19508 Tiller Trail Hwy
Days Creek, OR 97429

Fine Fleece Shetland Sheep Association Inc. Fleece Performance Registration Rules and Instructions

For each sheep submitted for registration you will need:

- Front and back side of NASSA registration certificate. (NASSA certificate is not required if both parents are FFSSA registered.)
- OFDA 2000 Report (summary page), including names of sheep you are registering.
- FFSSA Fleece Performance Approval and Provisional Registration Form (multiple sheep can be listed).

How to Apply for Provisional Registrations (Includes free upgrade to Approved Registration.)

Step 1) Join FFSSA as a Senior, Junior, or Associate with Registry Privileges member.

Step 2) Fill out the sections of this form that are applicable.

Step 3) Sign and submit completed form.

Step 4) If you choose to submit paper documents, mail or email your documents to:

FFSSA/GLM Registry
19508 Tiller Trail Hwy
Days Creek, OR 97429
Phone: 541-825-8580
Email: FFSSA@glmregistry.com

Step 5) Use the PayPal button at: www.finefleeceshetlandsheep.org or send your check with the appropriate fees to:

FFSSA/GLM Registry
19508 Tiller Trail Hwy
Days Creek, OR 97429

Sheep from two FFSSA parents maintain provisional status until they reach 22 months of age, are micron tested, and pass approval on their own merit.

How to Upgrade from Provisional to Approved Registration (There is no fee to upgrade your sheep's registration from Provisional to Approved.)

Step 1) Take a mid-side sample from each sheep and send samples for testing.

Step 2) When you have the OFDA 2000 Report (summary page), write the sheep name and FFSSA number on this report for each sheep you want to upgrade from *Provisional* to *Approved*. At the top of the report write: "Upgrade named sheep from Provisional to Approved." The report is ready to submit.

Fine Fleece Shetland Sheep Association Inc. Fleece Performance Registration Rules and Instructions

Step 3) Scan and send document to the FFSSA/GLM Registry via email. If sending document by US Mail send to:

FFSSA/GLM Registry
19508 Tiller Trail Hwy
Days Creek, OR 97429
Phone: 541-825-8580
Email: FFSSA@glmregistry.com

Each sheep's fleece will be graded by the Registry Chair. After your sheep is approved, you will receive an embossed sticker to place on the sheep's registration certificate which designates your sheep's fleece grade, and that the sheep is Approved.
